

Consultant Opportunity with Vital Strategies Scope of Work for Road Injury Surveillance Consultant

Location of Consultancy/Assignment: Based in Nairobi, Kenya with support to Mombasa County

Category: Consultancy

Duration: March 1, 2025 to December 31, 2025

Contract Manager: Daniel Chekol

Vital Strategies Program/Project Background

The Bloomberg Philanthropies Initiative for Global Road Safety (BIGRS) supports a global network of cities to implement evidence-based interventions. The program's goals are to reduce road traffic fatalities and injuries through expert technical assistance from road safety partner organizations globally.

Purpose and Scope of this Assignment/Consultancy

Vital Strategies seeks an experienced consultant who will be responsible for supporting the National Transport Safety and Authority (NTSA) data team to develop a national road safety report and work with Vital Strategies' road injury surveillance team to strengthen road injury surveillance systems in Mombasa County, Kenya.

The consultant should have a minimum of a master's degree in a relevant field (e.g. public health, epidemiology, biostatistics, transport engineering, or similar). The consultant should also have experience in data management and analysis related to public health, transportation, or public policy (experience with statistical analysis software required; GIS) preferred), familiarity with the local context and road safety challenges in Kenya, ability to work in a multi-agency setting, and be willing to travel to Mombasa as required. Lastly, the consultant should have excellent communication and presentation skills with a proven capacity to work independently and in a multidisciplinary team. The consultant is expected to engage closely with NTSA, including in-person time at the NTSA office in Nairobi as required.

Vital Strategies Organizational Background

Vital Strategies is a global health organization that believes every person should be protected by equitable and effective public health systems. We partner with governments, communities and organizations to reimagine public health, and the result is millions of people living longer, healthier lives. Our team of experts work in 73 countries with offices in New York City, São Paulo, Jinan, Addis Ababa, Paris, New Delhi and Singapore to help strengthen public health systems, protect lives and take on preventable diseases, across the world.

We partner with governments, communities and organizations to advance public health. Our team of scientists, researchers, communicators and advocates work together with our partners toward cleaner air, healthier food, safer roads, science-led policies, and preventing disease and illness. Our goal is to build a future where health is produced and protected for everyone and by everyone across all facets of our lives, in our families, communities and countries.

Scope of Work/Specific Tasks

- Engage closely with NTSA’s data team to analyze crash data and support the development of a national road safety report.
- Support NTSA on efforts to improve the in-house crash database.
- Serve as liaison between road safety data stakeholders and BIGRS partners at the national level and in Mombasa County.
- Coordinate with designated personnel to oversee the abstraction of police crash data in Mombasa County.
- Train, monitor and oversee contracted data entry staff.
- Conduct data cleaning and analysis of designated data sets – including preparing tables, charts, and spatial analysis for identification of high-risk locations.
- Develop the 2024 road safety report for Mombasa County and disseminate findings to stakeholders.
- Address data needs of BIGRS partners, NTSA and the County Government of Mombasa.
- Prepare and submit monthly reports on progress of deliverables in the template provided by Vital Strategies.
